FUNCTION DESCRIPTIONS

White Rice – use for all white rice varieties (long, medium or short grain). A variety of grains can be cooked using this function: barley, millet, amaranth and couscous.

a. Hard White Rice – use for a harder rice texture. This function works well when making rice salads.

b. Soft White Rice – use if a softer rice texture is desired.

Sushi Rice – select when cooking sushi rice. Creates a sticky rice texture.

Brown Rice – use for all brown rice varieties (long, medium or short grain). Also is ideal for these other grains: wheat berries, black rice and wild rice.

Risotto – a specially designed function to provide time to make perfect risotto every time – all in one pot.

Oatmeal – both traditional old-fashioned oats and Irish-style steel cut oats can be used on the Oatmeal setting. The oatmeal function also lets you make a creamy polenta – without the stirring!

Quick Cook – when time is running short, you can bypass the regular White or Brown Rice functions and just use this Quick Cook setting. Not only can you get a quick rice out of it, it is also great for Israeli couscous and rice pilafs as well. Quick Cook can also be used as a sauté function when used with the Slow Cook and Soup function.

Slow Cook – slow cook from start to finish using the Slow Cook function. This function allows the user to adjust the cooking time to meet one's needs.

Steam – using the provided steaming tray, vegetables to fish to dumplings can all be steamed on this one adjustable function.

Soup – prepare your favorite soup recipe in your Cuisinart® Rice Plus™ Multi-Cooker. Keep the soup warm in the same pot after it has finished cooking with the Keep Warm function.

Reheat – the large capacity of the Rice Plus™ Multi-Cooker can handle leftovers for the next day. When using this function, just add a little bit of water or broth to the rice to bring back some of the moisture.

OPERATION

REMINDER

Your Rice Plus™ Multi-Cooker comes with a 6-ounce (12 tablespoons or $\frac{3}{4}$ of a standard 1-cup measure) measuring cup. The liquid is measured with a traditional liquid measuring cup (1 cup = 8 ounces = 16 tablespoons).

Only white rice can be cooked to the maximum amount of the Rice Plus™ Multi-Cooker (8 rice cooker cups).

TIPS AND HINTS

RICE TIPS

- We recommend rinsing all imported rice. Place rice in a medium bowl and cover with water. Do not use the cooking bowl. Swirl until the water appears cloudy, then drain in a fine mesh strainer. Fill the bowl with fresh water and repeat until water is clear or nearly clear.
- Some people wash domestic (not imported) rice, which is usually vitamin-enriched. This removes the starch and makes it less sticky, but it also washes away some of those vitamins.
- Sushi rice and most brown rice should always be rinsed before cooking. Follow the directions on the package your rice comes in.
- Brown rice should be kept on the Keep Warm setting for no more than 2 hours. If kept at that setting longer, the rice may begin to ferment.
- When measuring rice with your rice cooker cup, level it off with a table knife or spatula.
- Adding a teaspoon of vegetable oil to rice or coating the cooking bowl lightly with nonstick cooking spray will result in rice with separated, less sticky grains.
- After adding rice to the cooking bowl, level it off to cover the entire bottom of the bowl so it cooks evenly.
- The taste of the water will affect the taste of the rice. If you do not like the taste of your tap water, use filtered water.
- Rice can be cooked in liquids other than

water. Use low-fat, low-sodium meat or vegetable stocks/broths. Fish stock or clam broth may be used for seafood-flavored rice.

- When making rice, open the rice cooker as soon as the audible tone sounds to indicate cooking cycle is complete. Stir rice with the rice paddle or a wooden spoon – this prevents rice from hardening or getting sticky.
- For combination dishes of rice, steamed vegetables, seafood, poultry and/or meats, use our recipes as a guide and then create your own.
- The best time to add vegetables to rice is just after the Rice Plus™ finishes cooking and enters the Keep Warm mode. Stir in chopped raw vegetables, such as green onions, slivered snow peas, shredded carrots, or even grape tomatoes to add texture to the dish – they will warm up while the rice is resting, and if served within 5 to 10 minutes, will retain their unique textures.
- When you don't have time to monitor or constantly stir dishes like Risotto and Oatmeal, use your Rice Plus™. Just select the specific program and walk away. The unit will go to Keep Warm when food is finished cooking.
- If your recipe calls for salt, add it after adding liquid, and swirl with the rice paddle or a wooden spoon to evenly distribute it—then level off the rice as evenly as possible.

QUICK COOK

- The Quick Cook function can be used as a sauté function when used in combination with the Slow Cook or Soup function. Use the Quick Cook function as a stovetop burner to sauté and brown meats, as well as vegetables and grains, before selecting the appropriate program to finish cooking a dish.
- You can also use the Quick Cook function to prepare commercially packaged pilafs, rice and grain mixes. If directed to saute ingredients, select Quick Cook, add specified amount of butter or oil, rice, vegetables, and meat and sauté according to package instructions. Then add liquid, close the lid, and select appropriate cooking function to perfectly finish the job.

KEEP WARM

- The Keep Warm function is a great way to keep already heated foods warm for serving. It is not meant as a cooking function. Raw meats or foods under the temperature of 140°F should not be cooked using this function.

SOUP/SLOW COOKING

- When using the Soup or Slow Cook function, the cooking pot should not be filled more than $\frac{3}{4}$ full.
- Any meats should be browned first before slow cooking.

STEAMING

- When steaming vegetables, clean them and trim to a consistent size so they cook evenly.
- When steaming meats such as poultry or sausage, cut into small, consistently sized pieces (such as “finger strips” or $\frac{1}{2}$ -inch slices) and arrange in a single layer in the Steaming Basket.

OATMEAL

- Oatmeal should always be well stirred before serving.

FINISH TIME

- Some foods taste best when served just after they finish cooking. If you would like rice or other foods to be freshly cooked later in the day, decide on the time you'd like to eat, and program the desired Finish Time.
- If using perishable fresh ingredients, do not use the Finish Time feature.
- The following are **approximate** cooking times:
 - White rice – 45 minutes
 - Brown rice – 1 hour 50 minutes
 - Quick rice – 30 minutes
 - Soft – 55 minutes
 - Hard – 30 minutes
 - Risotto – 1 hour
 - Oatmeal – 50 minutes
 - Sushi – 40 minutes
 - Reheat – 35 minutes

COOKING CHARTS

GUIDE FOR COOKING RICE

Use these charts and the water level markings in the bowl as a guideline. There are variables in the texture of cooked rice, from subtle differences between brands to rinsing or not rinsing to personal taste. Let your taste and preference serve as your best guide. If your rice/grain is too hard or chewy, increase water amounts by ¼ cup at a time. If rice/grain is too soft, reduce the water by ¼ cup until your desired texture is achieved.

The retail store shall then, according to its preferences, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer's prior usage of the product. If the above two options do not result in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility if service or repair can be economically accomplished.* Cuisinart and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund of nonconforming products under warranty.

California residents may also, according to their preference, return nonconforming products directly to Cuisinart for repair or, if necessary, replacement by calling our Consumer Service Center toll-free at 1-800-726-0190. Before Returning Your Cuisinart® Product

If you are experiencing problems with your Cuisinart® product, we suggest that you call our Consumer Service Center at 1-800-726-0190 before returning the product for servicing. Often, our Consumer Service Representatives can help solve the problem without having the product serviced. *Important: If the nonconforming product is to be serviced by someone other than Cuisinart's Authorized Service Center, please remind the servicer to call our Consumer Service Center at 1-800-726-0190 to ensure that the problem is properly diagnosed, the product is serviced with the correct parts, and to ensure that the product is still under warranty.

TIPS ON MAKING SUSHI ROLLS:

Sushi is very versatile and can be made with just about any filling that you wish. If using raw fish, be sure that it is sushi-grade fish from a reputable fishmonger. Cooked fish and vegetables are simple alternatives.

A sushi mat is very helpful in rolling sushi. You can also hand-roll sushi if using nori (seaweed paper).

Following are some suggestions for fillings to give guidelines on amounts – substitute your favorite flavors.

AVOCADO, SCALLION & BASIL ROLL

Makes 1 roll

Equipment needed: sushi rolling mat

- 1½ cups Perfect Sushi Rice (page 18)
- ¼ avocado, peeled, pitted and thinly sliced
- 1 scallion, thinly sliced
- 6 to 7 fresh basil leaves
- bowl of cold water (to help in rolling sushi)

Cover the sushi mat with plastic wrap (to prevent sticking). Wet hands with cold water and press sushi rice onto covered mat. Place the avocado, scallion and basil leaves in a thin horizontal line across the middle of the rice. Wet hands again with the water and, with the help of the sushi mat, roll the rice toward you in a jelly-roll fashion. Be sure to roll tightly, but without too much pressure, to ensure an even sushi roll.

Unwrap the sushi mat and then, with a clean and sharp knife, cut into 8 pieces.

Serve with pickled ginger, wasabi and light soy sauce.

SHRIMP & ASPARAGUS ROLL

Makes 1 roll

Equipment needed: sushi rolling mat

- 1 sheet nori
- 1 cup Perfect Sushi Rice (page 18)
- 4 steamed shrimp, halved (see steaming chart on page 12)
- 2 asparagus spears, blanched and halved horizontally
- 1 to 2 tablespoons toasted sesame seeds
- bowl of cold water (to help in rolling sushi)

Cover the sushi mat with plastic wrap (to prevent sticking). Lay the nori on top of the covered mat. Wet hands with cold water and press sushi rice on top of the nori, leaving a 1 inch space on the bottom of the nori, closest to you. Place the shrimp and asparagus spears in a thin horizontal line across the middle of the rice. Wet hands again with the water and, with the help of the sushi mat, roll the rice toward you in a jelly-roll fashion. Be sure to roll tightly, but without too much pressure, to ensure an even sushi roll.

Unwrap the sushi mat. Place the toasted sesame seeds on a clean plate. Roll the sushi roll in the toasted sesame seeds to cover. Using a clean and sharp knife, cut into 8 pieces.

Serve with pickled ginger, wasabi and light soy sauce.

Put the butter in the cooking pot of the Cuisinart® Rice Plus™ Multi-Cooker. Select the **Risotto** function and press **Start**. Once butter is hot and shimmering, about 2 minutes, add the onion, shallot and garlic and a pinch each of the salt and pepper. Sauté until softened, about 3 minutes. Add the rice and sauté until just translucent, about 10 minutes. Pour in the wine and cook until almost completely evaporated and then add the squash and nutmeg. Sauté the squash with the rice mixture for about 4 minutes, until they are crisp-tender – be sure not to overcook the squash during this stage for they will fully cook during the steaming process once the stock is added.

Pour in all of the hot stock and the sage. Close the lid of the cooker and let the risotto finish cooking.

Once the audible tone has sounded to indicate the end of cooking, open the lid and stir in the remaining salt and pepper, lemon juice, Parmesan, and parsley.

Serve immediately. If you wish to use the Keep Warm function, more stock will need to be added before serving to ensure a creamy consistency.

A TIP ON LEFTOVERS:

Arancini

Leftover risotto should not go to waste. It is perfect for the Italian appetizer, arancini (which translated means “little orange”).

Simple to make, try them next time you prepare risotto.

Take your leftover risotto, plain or from any recipe, and form into 2-inch diameter balls (or smaller if you are making a more delicate hors d’oeuvre). They are great stuffed with a ½-inch piece of fresh mozzarella. If you’re using plain risotto, stir a little marinara sauce with the rice before forming.

Prepare a classic breading, 1 bowl of flour, 1 bowl of beaten eggs, and 1 bowl of breadcrumbs (seasoned or plain). Lightly bread and either bake in a 375F degree oven or pan fry in hot vegetable or olive oil large skillet set over medium heat. Bake/cook until evenly browned.

These are best served immediately.

STEAMED VEGETABLE WONTONS

- 2 tablespoons finely chopped shallot
- 2 tablespoons finely chopped carrot
- 1 tablespoon finely chopped celery
- ½ green onion, finely chopped
- 2 tablespoons finely chopped water chestnuts
- ¾ teaspoon chopped garlic
- 1 tablespoon finely chopped mushroom
- 1 tablespoon finely chopped red bell pepper
- 1 tablespoon finely chopped fresh ginger
- 1 teaspoon soy sauce
- 1 teaspoon sesame oil
- 2 tablespoons rice vinegar

- 12 round wonton wrappers
- 2 cups water

Heat oil in a medium skillet set over medium heat. Add the shallot, carrot, celery, and green onion and sauté for about 3 minutes, until vegetables soften slightly. On a clean surface, line up 3 to 6 wonton wrappers at a time. Brush the edges of the wrappers with a small amount of water. Place 2 teaspoons filling in center. Put the water in the cooking pot of the Cuisinart® Rice Plus™ Multi-Cooker. Select the **Steam** function. Set the timer to 14 minutes and press **Start**.

While the cooker is preheating, place the wontons on the provided steaming tray, making sure that the wontons do not touch each other. Once the preheat tone sounds, carefully place the steaming tray with the wontons in the cooker. Close the lid and let cook for the remaining 11 minutes.

Once the audible tone has sounded to indicate the end of cooking, turn the unit off and open the lid. Carefully remove wontons.

Serve warm with Ginger Dipping Sauce (recipe follows).
