See reverse side for Function Guide.

# Function Guide

## Use: Toast, Bagel, Bake and Broil

### Toast:

Oven rack should be in position C

Turn Function dial to Toast

Turn Toast Shade dial to desired setting, then press Start/Stop button.

### Bagel:

Oven rack should be in position C

Turn Function dial to Bagel

Bagels should be put in face up. Turn the Toast Shade dial to desired setting, then press Start/Stop button.

### Bake:

Oven rack should be in position A

Turn Temperature dial to desired temperature, then turn the Function dial to Bake. The oven indicator light will turn on to indicate the oven is preheating.

### Broil:

Oven rack should be in position B or C

Turn Temperature dial to the Broil position, then turn the Function dial to Broil. The oven indicator light will turn on to indicate the oven is preheating.

## Helpful Hints

If toasting two items, center them in the middle of the rack.

If toasting four items, place two in front and two in back, evenly spaced.

If toasting six items, place three in front and three in back, evenly spaced.

- When in Toast or Bagel mode, you must press the Start/Stop button to begin the toasting cycle.
- When using Bake or Broil functions, the unit will turn on as soon as you move the Function dial from the Off position. Make sure to set your temperature first.
