RECIPEs

Mixing Tips
• Always read entire recipe and measure all ingredients before beginning the mixing process.
• For best results, do not measure flour directly from the bag. Pour into a container or bowl, scoop out the flour and level with the back of a knife or spatula. For flour stored in a container, stir before measuring.
• Eggs, butter or cream cheese combine more thoroughly at room temperature.
• Remove butter for recipe first and cut into ½-inch pieces, then measure out remaining ingredients for recipe. This will hasten the warming process. Do not warm butter for baking in a microwave unless instructed to do so. Microwaving can melt butter; melted butter will change the final product.
• The best cheesecakes are made when the eggs and cream cheese are a similar room temperature. While the Cuisinart hand mixer can easily mix cold cream cheese, the trick is not to add too much air, which can cause cracking.
• For best results, use heavy cream, cold from the refrigerator, for whipped cream.
• For best results, whip egg whites in a spotlessly clean stainless steel or glass mixing bowl. If available, use a copper mixing bowl. Chocolate chips, nuts, raisins, etc. can be added using speeds 1 or 2 of your hand mixer.
• To separate eggs for any recipe, break each egg individually into a small bowl, gently remove yolk, then transfer egg white to spotlessly clean mixing bowl. If a yolk breaks into the egg white, reserve that egg for another use. Just a drop of egg yolk in the white will prevent the whites from whipping properly.
• To achieve the best volume when whipping egg whites, the mixing bowl and chef’s whisk attachment or beaters must be spotlessly clean and free of any fat, oil, etc. (Plastic bowls are not recommended for whipping egg whites.) The presence of any trace of fat or oil will prevent the egg whites from increasing in volume. Wash bowl and attachments thoroughly before beginning again.
• Occasionally ingredients may stick to the sides of the mixing bowl. When this occurs, turn mixer off and scrape the sides of the bowl with a rubber spatula.

Meringue Kisses

Light as a cloud, these little kisses are just the thing when the sweet tooth bites.

Preparation: 15 to 20 minutes, plus baking and resting times.
Makes 36 kisses

1 tablespoon butter, melted
2 tablespoons confectioners’ sugar
4 large egg whites
\( \frac{1}{8} \) teaspoon cream of tartar
\( \frac{3}{4} \) cup granulated sugar (superfine is best)
1 teaspoon vanilla or almond extract
2 ounces chopped semisweet or bittersweet chocolate (\( \frac{1}{8} \)-inch chop)

Preheat oven to 225°F. Line 2 baking sheets with parchment paper. Brush the parchment lightly with the melted butter, then dust with confectioners’ sugar, shaking off excess sugar.

Place the egg whites and cream of tartar in a medium mixing bowl. Start mixing the egg whites and cream of tartar on speed 1/Low, increasing gently to speed 5/High. Whip until soft peaks form, 1½ to 2 minutes (depending on temperature of egg whites). Sprinkle sugar 1 tablespoon at a time over egg whites and beat on speed 5/High after each addition, until stiff peaks form and mixture is shiny but not dry, about 4 minutes total. Add the vanilla and beat on speed 1/Low to blend in, 10 seconds.

Using a clean rubber spatula, fold in chopped chocolate. Drop meringue mixture by rounded tablespoons onto prepared baking sheets, or gently place mixture in a large pastry bag fitted with a \( \frac{3}{8} \)-inch plain tip and pipe out “kisses”. Bake in preheated oven for 1½ hours; do not open oven. Turn off oven and let sit in warm oven for an additional 1½ hours to dry out. Transfer to a wire rack to cool completely. Store in an airtight container.

Nutritional information per “kiss”:

- fat 1g • sat. fat. 0g • chol. 0mg • sod. 8mg
- calc. 1mg • fiber 0g

Tip: Meringues are best when made on a dry day.

To make “nests” for mousse:
Draw 3-inch circles on the underside of parchment sheet. On the cookie side, butter and dust circles with confectioners’ sugar. Pipe concentric circles of meringue into the 3-inch rounds to form the base. Pipe another 2 circles on top of the outermost edge of the meringues. Bake as directed, but increase both the baking and resting time to 2 hours. Makes 4.

Garlic & Chive Mashed Potatoes

Old-fashioned comfort food at its best. For basic mashed potatoes, omit the garlic and chives.

Preparation: 20 minutes or less, plus cooking time for potatoes. Makes 7 cups (12 servings)

3 pounds russet or Yukon Gold potatoes
4-6 garlic cloves, peeled and halved
2 teaspoons kosher salt, divided
1 teaspoon white wine vinegar
¾ cup whole milk
½ cup half-and-half
3 tablespoons unsalted butter
½ cup (¼ ounce) chopped fresh chives
½ teaspoon freshly ground white or black pepper

Peel the potatoes and cut into ½-inch slices. Place the potatoes, garlic, 1 teaspoon kosher salt, and wine vinegar in a 3¾ quart saucepan* and cover with 1 inch of cold water. Cover loosely and bring to a boil over high heat, then reduce heat to medium high and boil gently until potatoes are tender but not falling apart, about 15 to 18 minutes. While potatoes are cooking, combine milk, half-and-half, butter, and half the chives in a 1½-quart saucepan. Simmer over low heat until butter is completely melted. Keep warm.

Drain the cooked potatoes and garlic, return to the saucepan, and place over low heat for 1 minute. Remove from the heat, and use speed 1/Low to mash the potatoes and garlic until somewhat smooth, about 30 seconds. While still mixing, add the hot milk and butter mixture, and mix until well blended, about 30 seconds. Mix on speed 3/Medium until fluffy, about 1 minute. Add the remaining salt and pepper; mix to blend, 15 seconds. Scrape down sides of pan with rubber spatula as necessary. Transfer the potatoes to a warm serving bowl and sprinkle with the remaining chopped chives. Serve immediately.

Souffléed Sweet Potatoes with Praline Topping

For easy entertaining, you may prepare the potatoes ahead of time. Make the topping just before putting them into the oven.

Preparation: 20 to 25 minutes, plus cooking and baking times.

Makes 8 to 12 servings

- cooking spray
- 3½ pounds sweet potatoes or yams, peeled, cut into ½-inch slices
- zest of 1 lemon, finely chopped
- 2 tablespoons fresh lemon juice
- ½ cup firmly packed brown sugar (light or dark), divided
- 5 tablespoons butter, room temperature, divided
- ½ cup evaporated fat-free milk
- 3 large eggs
- 1½ teaspoons kosher salt, divided
- ½ teaspoon freshly ground pepper
- 1½ cup half-and-half
- ½ teaspoon cinnamon
- ¼ teaspoon freshly grated nutmeg
- pinch cayenne
- 2/3 cup coarsely chopped pecans

Preheat the oven to 350°F. Coat an 8-cup shallow casserole/baking dish with cooking spray.

Place the sweet potatoes in a 3¾ quart saucepan and cover with 1 inch of cold water. Bring to a boil over high heat, reduce heat to medium and cook until potatoes are fork tender, about 15 to 18 minutes. Drain and transfer to a large bowl. Add lemon zest and juice. Mash potatoes on speed 2/Low until smooth, about 40 seconds. Add half the brown sugar and 2 tablespoons of the butter; mix until well-blended, about 40 seconds. Add the evaporated fat-free milk; mix on speed 3/Medium until blended, 30 seconds. Mix in the eggs one at a time on speed 2/Low until smooth and blended, 30 seconds. Add 1 teaspoon of the salt and all the pepper; mix on speed 1/Low for 30 seconds.

Transfer the sweet potato mixture to the prepared baking dish and spread evenly. Place the remaining butter in a 1½-quart saucepan and melt over medium heat. Stir in the remaining brown sugar, half-and-half, remaining salt, cinnamon, nutmeg, and cayenne. Stir over medium heat until sugar is dissolved. Stir in the pecans and simmer until slightly thickened. Spread this mixture over the sweet potatoes in the casserole.

Bake the preheated 350°F oven for 25 to 30 minutes, until heated through and lightly browned on top. Serve hot.

Three-Cheese Soufflé

Full of rich cheese flavor, this soufflé makes a wonderful supper or brunch.

Preparation: 25 to 30 minutes, plus baking time.
Makes 8 servings

unsalted butter for dish(es)
½ cup grated Reggiano Parmesan cheese, divided
¼ cup unsalted butter
5 tablespoons unbleached, all-purpose flour
1¼ cups evaporated fat-free milk (not reconstituted)
¼ cup dry white vermouth
pinch cayenne
pinch freshly ground nutmeg
6 large egg yolks
1 teaspoon kosher salt
¼ teaspoon freshly ground pepper
¾ cup grated imported Gruyère
½ cup grated sharp white Cheddar
8 large egg whites
¼ teaspoon cream of tartar

Arrange rack in lower third of oven; preheat oven to 400°F. Generously butter a 10-cup soufflé dish, (you may also use eight 1¼-cup individual soufflé dishes) and sprinkle with half the Parmesan.

Melt butter in a 2¾-quart saucepan over medium heat. Stir in flour and cook, stirring constantly without browning, until the mixture bubbles, about 1 minute. Slowly whisk in milk, then vermouth. Cook until thickened, whisking constantly, about 2 to 3 minutes; stir in cayenne and nutmeg. Remove from heat and transfer to a large bowl.

Combine yolks, salt and pepper in a small bowl; mix on Speed 1/Low until smooth, 30 seconds. While mixing on speed 2/Low, add yolk mixture to sauce all at once and mix until well blended, 20 seconds. Stir in cheeses on speed 1/Low, 20 seconds. Wash the beaters with hot water and soap; dry completely.

Place egg whites and cream of tartar in a large stainless or glass mixing bowl. Beat on speed 5/High until stiff peaks form, about 2½ minutes. Use a rubber spatula to stir 1 cup of the beaten egg whites into the cheese sauce, then gently fold the remaining egg whites into the mixture, ⅓ at a time. Gently spoon the soufflé mixture into the prepared dish(es). Smooth over the top.

Place in the hot 400°F oven and immediately reduce the heat to 375°F. Bake the soufflé until puffed and golden – about 45 to 50 minutes for the large soufflé and 25 to 30 minutes for individual soufflés. The centers will be just barely set and creamy. Sprinkle with chopped fresh chives and serve immediately.

The retail store shall then, at its discretion, either repair the product, refer the consumer to an independent repair facility, replace the product, or refund the purchase price less the amount directly attributable to the consumer’s prior usage of the product. If the above two options do not result in the appropriate relief to the consumer, the consumer may then take the product to an independent repair facility if service or repair can be economically accomplished. Cuisinart and not the consumer will be responsible for the reasonable cost of such service, repair, replacement, or refund for nonconforming products under warranty.
