Before food is added, the ceramic pot may be lightly coated with cooking spray so cooked foods release more easily.

Root vegetables such as carrots and potatoes will take longer to cook. Either cut the pieces smaller or place on bottom of Slow Cooker. Baby carrots, for example, may take longer than other vegetables.

Ground meats and uncooked sausages should always be browned and drained before adding to Slow Cooker. Smoked sausage such as kielbasa does not need to be browned (though it may add flavor and visual appeal). If browning the night before, make certain the meat is cooked completely through and properly refrigerated. Combine with other ingredients just before slow cooking.

Browning meats (roasts, chops, cubes for stews) and poultry adds flavor and eye appeal to the finished dishes. It also helps cook out some of the fat.

In general, cooking for 1 hour on High is the equivalent of cooking for 2 hours on Low.

If you are not ready to serve food immediately, switch to the Warm mode to hold foods until ready to serve.

Tender vegetables, or those that you wish to be crisp-tender, should be added during the last 30 minutes of cooking time to prevent overcooking.

Each time you remove the lid, you will lose heat and will need to add 15 to 20 minutes to your cooking time. If you do need to stir (or peek), lift the lid just slightly so that you can get the spoon or spatula in.

A fat mop can be used to remove separated fat from slow cooked food by brushing it over the top. Alternatively, the food may be refrigerated, and the congealed fat can then be lifted off and discarded before reheating and serving.

Many slow-cooked foods such as stews benefit from cooling and refrigerating, then reheating — as the saying goes, stew or chili is always better the second day.
If using frozen foods, thaw completely before adding to Slow Cooker.

To cut the fat from recipes, remove as much of the visible fat as possible from meats and poultry. Cook and drain all ground meats. Remove skin from poultry.

Dried beans should be soaked overnight, then rinsed, drained and rinsed again before cooking. Do not add salt or any acid to beans when cooking, as it will prevent them from softening completely. Dried beans can be cooked ahead, drained and frozen. Thaw before adding to your favorite recipes.

The Slow Cooker is perfect for foods that require long, slow simmering, such as soups, stocks, stews, and dried beans.

The Slow Cooker is the perfect way to cook items that require a bain marie, or water bath. We recommend starting out with hot water and cooking on High for most of these recipes.

Cooking ground meats in the Slow Cooker without browning them first is not recommended, as ground meat has a high incidence of bacterial contamination. Ground meats used in the Slow Cooker should be browned first. We strongly advise against cooking a meatloaf in the Slow Cooker. (The Country Paté in our recipe book is an exception. The meat is ground fresh in the Cuisinart® Food Processor and is cooked in a simmering water bath on the High Setting. When we tested with a probe thermometer, the Paté had reached safe food cooking temperature well within suggested U.S.D.A. recommendations.)

Most of the recipes in this book are cooked on Low using the timer function, to allow you maximum freedom to go on to do other tasks. Most meats are better when cooked on Low (slower) than on High, and the recipes are written as such. If you prefer to slow cook on High, cut the cooking time in half.
To adapt your own recipes to the Slow Cooker:

› For most recipes, reduce the cooking liquid by at least 50% (soups are the exception). Liquids do not evaporate as they do in traditional cooking, and you often will end up with more liquid than when you began.

› In most cases, all ingredients can go in the Slow Cooker at once and can cook all day on Low setting. While it is not necessary to brown or sauté vegetables (onions, carrots, celery, peppers, etc.), it may add to the flavor. Browning meats adds to their taste and visual appeal, and helps to remove fat.

› Certain cuts of meat are more appropriate for Slow Cooker cooking: brisket, tip roast, chuck or rump roast, beef bottom round, pork shoulder or Boston butt, lamb shoulder, venison, chicken legs and thighs. Particularly lean cuts such as boneless, skinless chicken breast or “new generation” pork loin or tenderloin may seem dry when prepared in a Slow Cooker. See list of meats that are best in Slow Cooker (page 6).

› Dairy products (milk, sour cream, some cheeses) will break down and curdle during slow cooking. Substitute canned evaporated milk or nonfat dry milk, or add dairy products during the last 30 minutes of cooking.

› When making soups, add solid ingredients to Slow Cooker and then liquid to cover. If a thinner soup is desired, add more liquid to taste.

› If your recipe calls for precooked pasta – UNDERCOOK it.

› Add cooked rice to recipes during last hour of cooking.
Important Guidelines

- The Slow Cooker should always be at least half full for best cooking results; however, the Slow Cooker should never be more than three-quarters full (about 1 inch from the top rim).

- Because the Slow Cooker heats and cooks at low temperatures, food should be at room temperature before it goes into the cooker. If the food is refrigerator temperature, heat it on the high setting for about 2 hours to heat the contents to 140°F before changing to the low setting.

- If foods are to be cooked the next day in the ceramic pot, do not store in the refrigerator overnight.

- Any leftover food should be removed from the ceramic pot and stored in plastic containers up to 2 days, or frozen for future use.

- NEVER use the Slow Cooker to reheat food, as potentially harmful bacteria could develop during the slow cooking process. Remove food from the ceramic pot and reheat in a heat-safe container on a stovetop, or in an oven or microwave. Return food to the ceramic pot and keep warm in an oven, covering with foil, if desired. DO NOT use the glass lid in an oven. DO NOT place the ceramic pot on a stovetop or in a microwave.

- Do not place the ceramic pot directly on a table or countertop.

- Do not add frozen food such as meat or vegetables to Slow Cooker dishes. Heat to room temperature before adding.

- For food safety reasons, whole chickens should not be cooked in a Slow Cooker. They may not reach safe temperature in the proper amount of time.

- When cooking meat, the USDA recommends setting the unit to High for one hour and then reducing the heat to Low.

- Avoid sudden temperature changes. Really cold food or water can crack a hot ceramic pot.

- Never heat the ceramic pot when it is empty.

- Do not touch sides of Slow Cooker ceramic pot or Slow Cooker base while food is cooking.

- Always use potholders or oven mitts when removing the lid or ceramic pot from the base after cooking.
Suggested Foods

Meats

**Beef/Veal:** Choose cuts that are full of flavor and benefit from braising.
- Arm pot roast
- Beef brisket or corned beef brisket
- Beef short ribs
- Bottom round roast
- Chuck or rump roast
- Chuck shoulder steak
- Veal shanks

**Pork:** Less tender cuts work best – the lean “new generation pork” may become dry when cooked in Slow Cooker.
- Boston butt roast
- Pork shoulder pieces
- Sausages
- Country-style pork ribs (bone-in)
- Pork shoulder or blade roast

**Lamb:** Choose flavorful cuts that benefit from braising to tenderize.
- Lamb shoulder
- Lamb stew meat
- Lamb shanks

**Poultry:** Best choice: dark meat – bone-in and skinless. Breast meat can become dry in texture if cooked too long.
- Chicken or turkey legs and thighs (remove skin to reduce fat)

**Game:** Game generally tends to be less tender so it is perfect for the Slow Cooker.
- Venison roasts or stew meat
- Pheasant, duck thighs and legs

Country Pâté with Cranberries and Pistachios

Makes 12 slices

1 tablespoon unsalted butter
4 ounces shallots, peeled and chopped
1 pound lean pork (trimmed shoulder), cut into 1-inch cubes
½ pound veal, cut into 1-inch cubes
½ pound chicken thighs, skinless, boneless, cut into 1-inch cubes
1 large egg, lightly beaten
⅓ cup half-and-half
⅓ cup white vermouth or dry white wine
⅓ cup shelled white pistachios
⅓ cup dried cranberries
1 teaspoon kosher salt
1 teaspoon freshly ground pepper
1 teaspoon herbes de Provence
1 teaspoon sage
¼ teaspoon allspice
⅛ teaspoon freshly grated nutmeg
⅛ teaspoon cayenne pepper
⅛ teaspoon cumin
⅓ pound prosciutto, thinly sliced
1 quart boiling water

Heat butter in a 10-inch Cuisinart® nonstick skillet over medium heat. Cook shallots, stirring occasionally, until soft, about 5 minutes. Let cool; reserve.

Insert the metal blade in a Cuisinart® Food Processor. Place pork cubes in the work bowl and pulse 10 to 15 times until finely chopped. Do not overprocess. Remove; place in a large bowl. Place veal cubes in work bowl and pulse to chop; transfer to bowl with pork. Repeat with chicken.

Add cooled shallots, egg, half-and-half, wine, pistachios, cranberries, salt, pepper, herbes de Provence, sage, allspice, nutmeg, cayenne, and cumin to the mixing bowl. Stir to combine thoroughly.

Taste for seasoning by flattening 1 tablespoon of pâté mixture into a patty shape and cooking in a skillet until brown. Adjust seasonings if needed.

Lightly coat an 8½ x 4½ x 2½-inch loaf pan with cooking spray. Line pan with slices of prosciutto, letting ends hang over the edges. Spoon in meat mixture, pressing down to even. Cover with a slice of prosciutto and fold over the ends to cover.

StarterS/Beverages/MiScellaneouS
the meat mixture. Cut a 20-inch length of aluminum foil, fold to double and coat one side with cooking spray. Cover pan with foil, sprayed side down. Secure with kitchen twine.

Place rack in ceramic pot of the Cuisinart® Slow Cooker. Add boiling water. Carefully place filled and covered loaf pan on rack. Cover and press the on/off button to turn the unit on. Set the time to 3 hours and press High; slow cooker will automatically switch to Warm when cooking time has elapsed. The internal temperature of pâté should be 160°F. Let the pâté stand in the slow cooker until cool enough to handle. Place the covered loaf pan in a shallow baking dish. Cover with another baking dish. Place 3 or 4 one-pound cans on top to weigh down. Refrigerate until completely cool – at least 8 hours or overnight.

Remove foil and loosen pâté with a sharp knife run around the edges. Invert onto a plate. Scrape off and discard congealed juices. Cut into slices and serve with sliced crusty bread, mustard and cornichons.

Spinach, Gruyère & Artichoke Dip

The slow cooker is the perfect vessel to bake our version of this old snack favorite to feed a crowd, especially when your oven is busy with the rest of the meal.

Makes about 2 quarts

16 ounces frozen spinach (one bag), thawed

2 cans (15 ounces each) quartered artichoke hearts, drained

16 ounces reduced fat cream cheese, cut into 1-inch pieces

¼ cup evaporated fat-free milk, not reconstituted

3 ounces Gruyère, shredded

1 garlic clove, finely chopped

1 ounce shallot, finely chopped

2 ounces Parmesan, grated

½ teaspoon Tabasco® or other hot sauce (use more or less to taste)

Brush a 2-quart soufflé dish lightly with olive oil or coat with cooking spray. Place the spinach in a clean, dark kitchen towel and squeeze until all liquid is removed; reserve. Place the artichoke quarters in a towel and squeeze gently to remove excess liquid (do not squeeze too hard); reserve.

Place the cream cheese and evaporated milk in a large bowl. Using a hand-held mixer on medium speed, beat until creamy and smooth. Add the Gruyère, garlic, shallot, and two-thirds of the Parmesan; stir on low speed. Add the reserved artichoke hearts and hot sauce; stir on low speed to blend.

Transfer the mixture to the prepared dish; sprinkle with remaining Parmesan. Place the rack in the Cuisinart® Slow Cooker. Place the filled soufflé dish on the rack.

Cover and press the on/off button to turn the unit on. Set time to 3 hours and press High; slow cooker will automatically switch to Warm when cooking time has elapsed.

Dip should be puffed and bubbly when done. Serve hot with crackers or sliced French bread.

Rinse chicken and drain. Place in ceramic pot of Cuisinart® Slow Cooker along with the onion, celery, carrots, leeks, parsnips, bay leaves, peppercorns, parsley, and thyme. Add water. Cover and press on/off button to turn unit on. Set timer to 3 hours and press High. Chicken stock will keep for 3 days in the refrigerator, or can be frozen for up to 6 months.

**Hint:** Freeze chicken stock in 1-cup containers to use as needed.

**For Brown Chicken Stock:** Brown stock requires the step of roasting, but adds depth of flavor to the stock. Use this method (using turkey wings) to make Brown Turkey Stock ahead for holiday meals.

Preheat oven to 400°F. Place wings in a Cuisinart® Roasting Pan. Roast in preheated oven for about 30 minutes, until nicely browned. Add vegetables, stir and roast for an additional 10 to 15 minutes, until vegetables are browned. Proceed with recipe.

Lemon Chicken with Rosemary

Makes 8 servings

3 pounds bone-in, skinless chicken thighs, trimmed of excess visible fat

¾ teaspoon kosher salt
½ teaspoon freshly ground pepper
1 teaspoon olive oil
½ cup unbleached, all-purpose flour
2 large onions, peeled, halved and sliced

4 garlic cloves, peeled, roughly chopped
2 rosemary sprigs
½ cup fresh lemon juice
½ cup chicken broth
2 teaspoons lemon zest
1 lemon, thinly sliced
chopped rosemary for garnish

Heat a 12-inch Cuisinart® skillet over medium heat.

Season the chicken thighs on both sides with ½ teaspoon of salt and ½ teaspoon of black pepper. Once skillet is hot add the olive oil so that it shimmers across the pan but does not smoke. Dredge half of the chicken thighs in flour to coat lightly. Place chicken in hot skillet skin side down. Brown on both sides about 5 to 7 minutes. It is important not to move the chicken when it is first placed in pan; chicken will come loose once it is browned. Dredge remaining chicken and repeat. Reserve.

Pour all but 1 tablespoon of oil out of the skillet. Sauté onions and garlic for 2 to 3 minutes until softened. Stir in the rosemary sprigs and remaining ¼ teaspoon of salt. Add the lemon juice to the skillet, scraping up any brown bits that remain on the bottom with a wooden spoon. Let juice come to a boil and reduce by half. Add the chicken broth and let come to a boil.

Add onion mixture to the ceramic pot of the Cuisinart® Slow Cooker, and stir in the lemon zest. Nestle the browned chicken thighs in the onion mixture. Place lemon slices on top of the chicken.

Cover and press the on/off button to turn the unit on. Set time to 6 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed. Taste and adjust seasoning accordingly.

Serve in shallow bowls with rice or mashed potatoes.

Barbecue Beef Brisket

Trim fat cap on top of brisket to ⅛-inch thickness. Do not remove it all – it helps to keep the brisket tender and moist. Combine the brown sugar, Worcestershire, pepper, garlic powder, salt, dry mustard, and liquid smoke. Rub all over the brisket. If time allows, cover and refrigerate overnight to marinate. Make a single layer of the sliced onions in the bottom of the ceramic pot of the Cuisinart® Slow Cooker. Add the lager. Place the coated brisket on top. Cover and press the on/off button to turn the unit on. Set time to 10 to 12 hours and press Low; slow cooker will automatically switch to Warm setting. Remove the brisket, onions and cooking juices from the Slow Cooker and place in a shallow pan. Cover and refrigerate. One hour before serving, remove brisket from refrigerator. Preheat oven to 375°F. Remove hardened fat and discard. Remove brisket from cooking liquid. Strain liquid from onions and reserve for another use (you will have about 2 cups. This may be frozen – it is very good to use in soups); discard onions. Slice meat thinly (⅛-inch thick slices) while cold.*

Reassemble and place in roasting pan/baking dish. Spread 2 cups Barbecue Sauce evenly over the reassembled roast. Cover pan with lid or foil and place in preheated oven for 30 to 40 minutes, until heated through. Serve hot.

Alternatively the meat can be sliced thickly, then shredded using fingers or two forks. Stir in sauce and reheat until it just bubbles. After reheating, the Barbecue Beef may be placed in the Slow Cooker on Low for 1 hour, then turned to Warm when cooking time has elapsed.

*Thin slices will be easy to achieve using a Cuisinart® Electric Knife.

Braised Veal Shanks

Makes 4 servings

4 sprigs parsley  
4 veal shanks (about 3-3½ pounds total), about 1¼ inches thick, 3-3½ inches in diameter, tied  
¾ teaspoon kosher salt  
¼ teaspoon freshly ground black pepper  
½ cup unbleached, all-purpose flour  
3 teaspoons extra virgin olive oil  
¾ tablespoon unsalted butter  
¾ pound onions, peeled and chopped  
6 ounces carrots, peeled and chopped  
6 ounces shallots, peeled and chopped  
2 ounces celery, peeled and chopped  
3 garlic cloves, peeled and chopped  
3 teaspoons herbes de Provence, divided  
½ cup (15 ounces) diced tomatoes, drained  
¼ cup dry white vermouth  
¼ cup nonfat, low-sodium chicken stock  
1 bay leaf  
1 strip lemon zest

Remove leaves from the parsley, reserving stems. Chop leaves; reserve. Season veal with salt and pepper; dust lightly with flour, shaking off excess. Heat olive oil and butter in a 12-inch Cuisinart® skillet over medium-high heat. When hot, add the veal shanks and cook for 4 to 5 minutes on each side, until nicely browned. Remove and reserve. Add the chopped onions, carrots, shallots, celery, garlic, and herbes de Provence to the skillet. Cook over medium-low heat until onions and shallots are translucent and vegetables are slightly softened, about 5 minutes.

Place cooked vegetables in the ceramic pot of the Cuisinart® Slow Cooker along with the drained diced tomatoes, vermouth, chicken stock, bay leaf, lemon zest, and reserved parsley leaves and stems. Stir to combine. Top vegetable mixture with the browned veal shanks in a single layer. Cover and press the on/off button to turn the unit on. Set time to 6 to 8 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed.

Degrease the cooking liquid with a fat mop, or pour the liquid into a fat separator and allow the fat to rise to the top. Then pour the defatted liquid back into the cooked vegetables. Serve with pasta, rice, or polenta.

(continued)
Tip: Make your chopping task easy by using a Cuisinart® Food Processor fitted with the metal blade to chop the vegetables. First chop the parsley leaves and remove. Then with the machine running, drop garlic through the feed tube and process 5 seconds to chop. Add onion (cut into 1-inch pieces) and pulse to chop; remove. Pulse to chop shallots (cut into 1-inch pieces) remove. Pulse to chop carrots (cut into 1-inch pieces) and remove. Pulse to chop celery (cut into 1-inch pieces). The chopping is done in just a few moments.

½ pound dried white beans (cannellini or navy) 1 medium carrot, peeled and chopped
4 lamb shanks (about ¾ to 1 pound each) 1 celery stalk, chopped
1 teaspoon kosher salt 4 garlic cloves, chopped
1 teaspoon freshly ground black pepper 1 teaspoon herbes de Provence
1 tablespoon olive oil ½ cup dry red wine
1 tablespoon unsalted butter 1 can (28 ounces) plum tomatoes, drained well and roughly chopped

Finally, stir in the chopped tomatoes and the tomato paste – stir the vegetable/tomato mixture together with the beans. Tuck the bay leaf and the browned lamb shanks into the mixture. Transfer to slow cooker.

cooking spray
4 pounds butternut squash, trimmed, cut into ⅛" slices

To grate the cheese, drop pieces through the small feed tube of a Cuisinart® Food Processor while the machine is running. Process until almost grated and drop the bread pieces through the tube; pulse until they become fine crumbs. Add the thyme and 1 tablespoon butter. Pulse until combined. Reserved seasoned crumbs.

In the same work bowl, with the motor running, drop garlic and shallot through the small feed tube and process until they are finely chopped. In a Cuisinart® 12-inch skillet, warm 1 tablespoon olive oil over medium high heat. Sauté the garlic, shallots and mushrooms together until they are lightly browned (if mushrooms crowd the pan, brown in two batches). Season with salt and pepper. Lightly coat the interior of the ceramic pot of the Cuisinart® Slow Cooker with cooking spray. Using ½ of the squash, make a layer on the bottom. Continue layering with ½ the mushroom mixture and then ½ the crumbs. Repeat. Cut remaining tablespoon of butter into small pieces and dot the top. Cover and press the on/off button to turn the unit on. Set time to 5 hours and press Low. Slow cooker will automatically switch to Warm until ready to serve.

To drain spinach thoroughly, first squeeze out as much water as possible with your hands. Lay spinach on a clean kitchen towel, roll up and wring out the rest. One-quarter cup very dry spinach will remain. Set aside.

Coat the inside of a 2-quart soufflé dish with 2 teaspoons butter. Combine cheese and breadcrumbs. Dust prepared dish with crumb mixture; reserve remaining crumb mixture. Cut a piece of aluminum foil about 24 inches long. Fold in half lengthwise, then fold in half again two more times to create a strip about 24 inches in length and 2 inches wide to make a “cradle”; reserve.

Melt remaining butter in a 1¾-quart Cuisinart® saucepan over medium heat; add shallots and cook, stirring until softened. Add flour and stir for a minute. Pour in milk; stir occasionally until sauce is thickened. Remove from heat and add Gruyère. Season with salt, pepper and nutmeg. Place egg whites in a large mixing bowl; beat with a hand-held electric mixer or whisk until stiff peaks form. Set aside.

Place egg yolks in another large mixing bowl. Beat with mixer on Low, or whisk, for 1 minute. Gradually incorporate the hot cream sauce; beat 1 minute. Stir in spinach. Scoop ¼ of whites into spinach mixture and stir to lighten mixture. Gently fold in remaining beaten egg whites, taking care not to deflate mixture. Pour the mixture into prepared soufflé dish and sprinkle top with remaining crumbs. Set the dish in the center of the long strip of folded foil and bring up the sides to meet, twisting them together to form a handle. Place the rack in the ceramic pot of the Cuisinart® Slow Cooker.

*(continued)*
Carefully pour hot water into bottom of pot. To place filled soufflé dish on rack, use the foil cradle to help lift the dish, and carefully lower the dish into the pot and place on the rack.

Cover and press the on/off button to turn the unit on. Set time to 3 hours and press High; slow cooker will automatically switch to Warm when cooking time has elapsed. Remove the soufflé dish from the slow cooker using the foil strips to lift it. Serve timbale warm.

Makes 8 servings

- juice of 1 lemon
- ¼ cup chopped crystallized ginger
- 3 cans ginger ale
- Honey Yogurt Cream (recipe follows)
- 4 strips lemon peel, 2 x ¼", bitter white pith removed

Cover and press the on/off button to turn the unit on. Set time to 4 hours and press Low. When pears are tender, turn slow cooker off. Allow pears to cool in poaching liquid. Chill in liquid. (If desired, before serving, liquid may be thickened to a syrup-like consistency by simmering until it is reduced by half.)

To serve, arrange each pear on a deep plate (rimmed soup bowl works well). Spoon poaching liquid over pears. Garnish with a dollop of Honey Yogurt Cream, Chocolate Glaze and sprinkle with chopped crystallized ginger.

Lemon Cheesecake

Makes one 7-inch cheesecake

1 teaspoon unsalted butter  ½ cup granulated sugar
½ cup graham cracker crumbs*  2 large eggs, at room temperature
2 tablespoons granulated sugar  2 tablespoons fresh lemon juice
1 tablespoon unsalted butter, cut into 4 pieces  1 tablespoon grated lemon zest**
16 ounces reduced-fat cream cheese, cut into 1-inch pieces, at room temperature  ½ teaspoon vanilla extract
  ½ teaspoon lemon extract

Lightly coat the bottom and sides of a 7-inch springform pan with 1 teaspoon unsalted butter; reserve.

Place the graham cracker crumbs the 2 tablespoons of sugar and the butter in the work bowl of a Cuisinart® Food Processor fitted with the metal blade. Process for 30 seconds. Press the graham cracker mixture into the bottom of the prepared 7-inch springform pan.

Place cream cheese and ½ cup of sugar in a medium bowl. Using a hand-held electric mixer on medium speed, beat until very smooth. Add eggs, one at a time, then beat in lemon juice, zest, and extracts.

Pour the mixture into the springform pan. Set the rack in the ceramic pot of the Cuisinart® Slow Cooker. Place the springform pan on the rack. Cover and press the on/off button to turn the unit on. Set time to 2 hours and press High; slow cooker will automatically switch to Warm when cooking time has elapsed. Set timer for 30 minutes. Once the cheesecake has rested for 30 minutes, remove it from the slow cooker using hot pads, and place on a wire rack to cool completely. When cool, place in the refrigerator for at least 8 hours before serving.

*If you want to make your own graham cracker crumbs, crumble 4 graham cracker sheets into 1-inch pieces. Place in work bowl of Cuisinart® Food Processor fitted with the metal blade. Pulse to chop, then process continuously to pulverize into crumbs, about 30 to 40 seconds.

**Remove the outer zest from a clean, dry lemon, using a vegetable peeler. Use a thin-bladed knife to remove the bitter white pith from the strips of lemon peel.

Chocolate Terrine with Chocolate Cookie Crust

Makes 16 servings

1 pound bittersweet or semisweet chocolate, chopped
4 tablespoons unsalted butter, melted
1½ cups half-and-half
4 large eggs, lightly beaten
½ teaspoon table salt
3 tablespoons Kahlúa®
25 chocolate wafers, crushed

Line a loaf pan, 8½ x 4½ x 3 inches, with aluminum foil.
Place the chocolate, half-and-half and salt in a medium saucepan over low heat. Cook, stirring often, until about ⅔ of the chocolate has melted, about 8 to 10 minutes. Remove from heat; let stand about 5 minutes.

While the chocolate is resting, prepare the cookie crumb crust. Place the chocolate wafers in the work bowl of a Cuisinart® Food Processor fitted with the chopping blade. Pulse until roughly chopped. With the motor running, add the butter through the feed tube in a slow and steady stream. Process until just combined. Reserve.

Using a Cuisinart® Hand Mixer set on the lowest speed, add the eggs and Kahlúa® to the chocolate mixture. Mix until blended and smooth.

Press the chocolate cookie crumbs into the bottom of the prepared pan. Pour the chocolate mixture on top.

Place the oval rack into the ceramic pot of the Cuisinart® Programmable Slow Cooker. Add 4 cups warm water to the pot. Place the filled loaf pan on the rack. Desserts
Applesauce

Makes about 7 cups

4 pounds red apples*, washed  sugar, optional
2 lemons, juiced  cinnamon, optional

Core apples, but do not peel. Cut into 2-inch chunks. Mix lemon juice with enough water to make 1 cup.

Add the apples and water mixture to Cuisinart® Slow Cooker. Cover and press the on/off button to turn the unit on. Set time to 4 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed.

Use a potato masher to smash apples for a chunky applesauce, or purée the apple mixture in ceramic pot using a hand blender. Use a gentle up and down motion, moving the hand blender throughout the ceramic pot – do not lift completely out of the applesauce while blending. Season with sugar and/or cinnamon if desired.

*Some apples are more appropriate for applesauce. You may use all of one variety or mix to create your own blends. They may be peeled or not. For applesauce, try the following red varieties: McIntosh (blended with others), Elstar, Cortland, Fuji, Gala, Braeburn, Cameo, Criterion, Rome, Sierra Beauty, Spartan, Winesap, and York Imperial. Green varieties good for applesauce include Pippin and Gravenstein – they should be peeled first.
