Tips & Hints

› Before food is added, the ceramic pot may be lightly coated with cooking spray so cooked foods release more easily.

› Root vegetables such as carrots and potatoes will take longer to cook. Either cut the pieces smaller or place on bottom of Slow Cooker. Baby carrots, for example, may take longer than other vegetables.

› Ground meats and uncooked sausages should always be browned and drained before adding to Slow Cooker. Smoked sausage such as kielbasa does not need to be browned (though it may add flavor and visual appeal). If browning the night before, make certain the meat is cooked completely through and properly refrigerated. Combine with other ingredients just before slow cooking.

› Browning meats (roasts, chops, cubes for stews) and poultry adds flavor and color to the finished dishes. It also helps cook out some of the fat.

› In general, cooking for 1 hour on High is the equivalent of cooking for 2 hours on Low.

› If you are not ready to serve food immediately, switch to the Warm mode to hold foods until ready to serve.

› Tender vegetables, or those that you wish to be crisp-tender, should be added during the last 30 minutes of cooking time to prevent overcooking.

› Each time you remove the lid, you will lose heat and will need to add 15 to 20 minutes to your cooking time. If you do need to stir (or peek), lift the lid just slightly so that you can get the spoon or spatula in.

› If using frozen foods, thaw completely before adding to Slow Cooker.

› Dried beans should be soaked overnight, then rinsed, drained and rinsed again before cooking. Do not add salt or any acid to beans when cooking, as it will prevent them from softening completely. Dried beans can be cooked ahead, drained and frozen. Thaw before adding to your favorite recipes.
Cooking ground meats in the Slow Cooker without browning them first is not recommended, as ground meat has a high incidence of bacterial contamination. Ground meats used in the Slow Cooker should be browned first. We strongly advise against cooking a meatloaf in the Slow Cooker. (The Country Paté in our recipe book is an exception. The meat is ground fresh in the Cuisinart® Food Processor and is cooked in a simmering water bath on the High Setting. When we tested with a probe thermometer, the Paté had reached safe food cooking temperature well within suggested U.S.D.A. recommendations.)

Most of the recipes in this book are cooked on Low using the timer function, to allow you maximum freedom to go on to do other tasks. Most meats are better when cooked on Low (slower) than on High, and the recipes are written as such. If you prefer to slow cook on High, cut the cooking time in half.

To adapt your own recipes to the Slow Cooker:

- For most recipes, reduce the cooking liquid by at least 50% (soups are the exception). Liquids do not evaporate as they do in traditional cooking, and you often will end up with more liquid than when you began.

- In most cases, all ingredients can go in the Slow Cooker at once and can cook all day on Low setting. While it is not necessary to brown or sauté vegetables (onions, carrots, celery, peppers, etc.), it may add to the flavor. Browning meats adds to their taste and visual appeal, and helps to remove fat.

- Certain cuts of meat are more appropriate for Slow Cooker cooking: brisket, tip roast, chuck or rump roast, beef bottom round, pork shoulder or Boston butt, lamb shoulder, venison, chicken legs and thighs. Particularly lean cuts such as boneless, skinless chicken breast or “new generation” pork loin or tenderloin may seem dry when prepared in a Slow Cooker. See list of meats that are best in Slow Cooker (page 5).

- Dairy products (milk, sour cream, some cheeses) will break down and curdle during slow cooking. Substitute canned evaporated milk or nonfat dry milk, or add dairy products during the last 30 minutes of cooking.

- When making soups, add solid ingredients to Slow Cooker and then liquid to cover. If a thinner soup is desired, add more liquid to taste.

- If your recipe calls for precooked pasta – UNDERCOOK it.

- Add cooked rice to recipes during last hour of cooking.
Important Guidelines

- The Slow Cooker should always be at least half full for best cooking results; however, the Slow Cooker should never be more than three-quarters full (about 1½ inches from the top rim).
- Because the Slow Cooker heats and cooks at low temperatures, food should be at room temperature before it goes into the cooker. If the food is refrigerator temperature, add 30 minutes to your projected cooking time.
- Any left over food should be removed from the ceramic pot and stored in plastic containers up to 2 days, or frozen for future use.
- NEVER use the Slow Cooker to reheat food, as potentially harmful bacteria could develop during the slow cooking process. Remove food from the ceramic pot and reheat in a heat-safe container on a stovetop, or in an oven or microwave.
- Do not place the hot ceramic pot directly on a table or countertop.
- Do not add frozen food such as meat or vegetables to Slow Cooker dishes. Heat to room temperature before adding.
- For food safety reasons, whole chickens should not be cooked in a Slow Cooker. They may not reach safe temperature in the proper amount of time.
- Do not touch sides of Slow Cooker ceramic pot or Slow Cooker base while food is cooking.
- Always use potholders or oven mitts when removing the lid or ceramic pot from the base after cooking.
Suggested Foods

Meats

**Beef/Veal:** Choose cuts that are full of flavor and benefit from braising.
- Arm pot roast
- Beef brisket or corned beef brisket
- Beef short ribs
- Bottom round roast
- Chuck or rump roast
- Chuck shoulder steak
- Veal shanks

**Pork:** Less tender cuts work best – the lean “new generation pork” may become dry when cooked in Slow Cooker.
- Boston butt roast
- Pork shoulder pieces
- Sausages
- Country-style pork ribs (bone-in)
- Pork shoulder or blade roast

**Lamb:** Choose flavorful cuts that benefit from braising to tenderize.
- Lamb shoulder
- Lamb stew meat
- Lamb shanks

**Poultry:** Best choice: dark meat – bone-in and skinless. Breast meat can become dry in texture if cooked too long.
- Chicken or turkey legs and thighs (remove skin to reduce fat)

**Game:** Game generally tends to be less tender so it is perfect for the Slow Cooker.
- Venison roasts or stew meat
- Pheasant, duck thighs and legs

Beef Stock

Makes 6 cups

2 pounds beef and/or veal bones
1 pound beef chuck or other stew beef, cut into 1-inch cubes
1 large carrot, peeled, cut into 3-inch lengths
1 celery rib, cut into 3-inch lengths
1 large onion, peeled and quartered
2 tablespoons olive or vegetable oil
6 fresh chives
6 parsley sprigs
6 thyme sprigs
3 garlic cloves
12 peppercorns

Preheat oven to 425°F. Arrange bones, beef cubes, and vegetables in a shallow roasting pan. Drizzle with oil and toss to coat. Roast for 25 minutes, then turn and roast for an additional 25 minutes. Tie chives, parsley and thyme into a bundle using butcher's twine.

Cover and press the on/off button to turn the unit on. Set time to 8 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed. Rinse chicken and drain. Place in ceramic pot of Cuisinart® Slow Cooker along with the onion, celery, carrot, leek, parsnip, bay leaf, peppercorns, parsley, and thyme. Add water. Press on/off button to turn unit on. Set timer to 3 hours and press High; once slow cooker switches to Warm set time for 4 hours and press Simmer. Chicken stock will keep for 3 days in the refrigerator, or can be frozen for up to 6 months.

Hint: Freeze chicken stock in 1-cup containers to use as needed.

For Brown Chicken Stock: Brown stock requires the step of roasting, but adds depth of flavor to the stock. Use this method (using turkey wings) to make Brown Turkey Stock ahead for holiday meals.

Preheat oven to 400°F. Place wings in a Cuisinart® Roasting Pan. Roast in preheated oven for about 30 minutes, until nicely browned. Add vegetables, stir and roast for an additional 10 to 15 minutes, until vegetables are browned.

Stews & Chilis
--- Corn and Green Chile Chowder ---

Makes eight 1-cup servings

4 slices bacon, cut into small dice
1 medium onion, cut into small dice (approximately 1½ to 2 cups dice)
1 medium red pepper, cut into small dice (approximately 1½ to 2 cups dice)
1 celery rib, finely chopped
1 jalapeño pepper, seeds removed, finely chopped
3 garlic cloves, finely chopped
1½ teaspoons kosher salt, divided
⅛ teaspoon freshly ground pepper, divided
2 tablespoons unbleached, all-purpose flour
½ cup beer
2 cans (4½ ounces) chopped green chiles
12 ounces red potatoes, washed and cut into 1-inch dice
4 cups corn kernels (cut from about 4 ears of corn)
1 cup chicken broth, reduced sodium
½ cup heavy cream

Place bacon in a 12-inch skillet over medium heat. Once bacon is cooked through to taste, remove and reserve. Stir the chopped onion, red pepper, celery, and jalapeño into the skillet. Sauté vegetables until tender, about 5 minutes. Add the garlic and ½ teaspoon of both salt and pepper to the skillet and continue to cook for an additional 3 to 5 minutes.

Stir the flour into the skillet and cook for 2 to 3 minutes. Add the beer, scraping up any brown bits that have accumulated on the bottom of the skillet. Add vegetable mixture to the slow cooker vessel of the Cuisinart® Slow Cooker. To the vegetables, add the green chiles, potatoes, corn, remaining salt and pepper, and chicken broth.

Cover and press the on/off button to turn the unit on. Set the time to 3 hours and press High; once slow cooker switches to Warm, set the time again for 6 hours and press Simmer. Slow cooker will automatically switch to Warm when cooking time has elapsed. Stir in heavy cream and remaining salt; cook on Low for 1 hour. To serve, stir in reserved bacon. Taste and adjust seasoning accordingly.

Optional: purée 1 cup of the soup separately and stir back into the remaining chowder for an extra-creamy texture.

Stews & Chilies
Veal Stew with Mushrooms & Artichokes

Makes about 8 cups

½ cup unbleached all-purpose flour
¾ teaspoon kosher salt
¾ teaspoon freshly ground pepper
2 pounds veal stew meat, cut into 1-inch cubes
6 teaspoons good quality olive oil, divided
½ can (14-ounce) diced tomatoes, drained
½ cup chicken stock
1 shallot, peeled and minced
1 garlic clove, peeled and minced
¾ teaspoon ground coriander
2 whole sprigs of parsley with stems

Entrees & Sauces
Lemon Chicken with Rosemary

Makes 6 servings

2 pounds bone-in, skinless chicken thighs, trimmed of excess visible fat

¾ teaspoon kosher salt

½ teaspoon freshly ground pepper

1 teaspoon olive oil

½ cup unbleached, all-purpose flour

1 large onions, peeled, halved and sliced

3 garlic cloves, peeled, roughly chopped

2 rosemary sprigs

½ cup fresh lemon juice

½ cup chicken broth

2 teaspoons lemon zest

1 lemon, thinly sliced

chopped rosemary for garnish

Heat a 12-inch Cuisinart® skillet over medium heat.

Season the chicken thighs on both sides with ½ teaspoon of salt and teaspoon of black pepper. Once skillet is hot add the olive oil so that it shimmers across the pan but does not smoke. Dredge half of the chicken thighs in flour to coat lightly. Place chicken in hot skillet skin side down. Brown on both sides about 5 to 7 minutes. It is important not to move the chicken when it is first placed in pan; chicken will come loose once it is browned. Dredge remaining chicken and repeat. Reserve.

Pour all but 1 tablespoon of oil out of the skillet. Sauté onion and garlic for 2 to 3 minutes until softened. Stir in the rosemary sprigs and remaining ¼ teaspoon of salt. Add the lemon juice to the skillet, scraping up any brown bits that remain on the bottom with a wooden spoon. Let juice come to a boil and reduce by half. Add the chicken broth and let come to a boil.

Add onion mixture to the crock insert of the Cuisinart® Slow Cooker, and stir in the lemon zest. Nestle the browned chicken thighs in the onion mixture. Place lemon slices on top of the chicken.

Cover and press the on/off button to turn the unit on. Set time to 8 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed. Taste and adjust seasoning accordingly.

Serve in shallow bowls with rice or mashed potatoes.

Barbecue Beef Brisket

This is a multi-step process, but well worth the effort. Because brisket is chilled after cooking, it allows you to remove excess fat, and makes slicing easier.

Makes 6 to 8 servings

| 1 | beef brisket, approximately 2½ pounds |
| 2 | tablespoons light or dark brown sugar, packed |
| 2 | teaspoons Worcestershire sauce |
| 2 | teaspoons freshly ground black pepper |
| 1 | teaspoon garlic powder |
| 1 | teaspoon kosher salt |
| 1 | teaspoon dry mustard |
| 1 | teaspoon liquid smoke |
| 1 | medium onion, peeled, cut into ½-inch slices |
| ½ | cup lager or ale |
| 2 | cups (more to taste) Barbecue Sauce, page 32, or purchased BBQ sauce |

Trim fat cap on top of brisket to ¼-inch thickness. Do not remove it all – it helps to keep the brisket tender and moist. Combine the brown sugar, Worcestershire, pepper, garlic powder, salt, dry mustard, and liquid smoke. Rub all over the brisket. If time allows, cover and refrigerate overnight to marinate. Make a single layer of the sliced onions in the bottom of the ceramic pot of the Cuisinart® Slow Cooker. Add the lager. Place the coated brisket on top. Cover and press the on/off button to turn the unit on. Set time to 10 to 12 hours and press Low; slow cooker will automatically switch to Warm setting. Remove the brisket, onions and cooking juices from the Slow Cooker and place in a shallow pan. Cover and refrigerate.

One hour before serving, remove brisket from refrigerator. Preheat oven to 375°F. Remove hardened fat and discard. Remove brisket from cooking liquid. Strain liquid from onions and reserve for another use (you will have about 2 cups. This may be frozen – it is very good to use in soups); discard onions. Slice meat thin (¼-inch thick slices) while cold.* Reassemble and place in roasting pan/baking dish. Spread 2 cups Barbecue Sauce evenly over the reassembled roast. Cover pan with lid or foil and place in preheated oven for 30 to 40 minutes, until heated through. Serve hot.

Alternatively, the meat can be sliced thick, then shredded using two forks or fingers. Stir in sauce and reheat until it just bubbles. After reheating, the Beef Barbecue may be placed in the Slow Cooker on Low for 1 hour, then turned to Warm when cooking time has elapsed.

*Thin slices will be easy to achieve using a Cuisinart® Electric Knife.

Braised Veal Shanks

Makes 4 servings

4 sprigs parsley
4 veal shanks (about 3-3 1/2 pounds total), about 1 1/4 inches thick, 3-3 1/2 inches in diameter, tied
3/4 teaspoon kosher salt
3/4 teaspoon freshly ground black pepper
1/2 cup unbleached all-purpose flour
3 teaspoons extra virgin olive oil
3/4 tablespoon unsalted butter
3/4 pound onions, peeled and chopped
6 ounces carrots, peeled and chopped
6 ounces shallots, peeled and chopped
2 ounces celery, peeled and chopped
3 garlic cloves, peeled and chopped
3 teaspoons herbes de Provence, divided
1 can (15 ounces) diced tomatoes, drained
1/4 cup dry white vermouth
1/4 cup nonfat, low-sodium chicken stock
1 bay leaf
1 strip lemon zest

Remove leaves from the parsley, reserving stems. Chop leaves; reserve. Season veal with salt and pepper; dust lightly with flour, shaking off excess. Heat olive oil and butter in a 12-inch Cuisinart® skillet over medium-high heat. When hot, add the veal shanks and cook for 4 to 5 minutes on each side, until nicely browned. Remove and reserve. Add the chopped onions, carrots, shallots, celery, garlic, and herbes de Provence to the skillet. Cook over medium-low heat until onions and shallots are translucent and vegetables are slightly softened, about 5 minutes.

Place cooked vegetables in the ceramic pot of the Cuisinart® Slow Cooker along with the drained diced tomatoes, vermouth, chicken stock, bay leaf, lemon zest, and reserved parsley leaves and stems. Stir to combine. Top vegetable mixture with the browned veal shanks in a single layer. Cover and press the on/off button to turn the unit on. Set time to 8 to 10 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed.
Degrease the cooking liquid with a fat mop, or pour the liquid into a fat separator and allow the fat to rise to the top. Then pour the defatted liquid back into the cooked vegetables. Serve with pasta, rice, or polenta.

**Tip:** Make your chopping task easy by using a Cuisinart® Food Processor fitted with the metal blade to chop the vegetables. First chop the parsley leaves and remove. Then with the machine running, drop garlic through the feed tube and process 5 seconds to chop. Add onion (cut into 1-inch pieces) and pulse to chop; remove. Pulse to chop shallots (cut into 1-inch pieces); remove. Pulse to chop carrots (cut into 1-inch pieces) and remove. Pulse to chop celery (cut into 1-inch pieces). The chopping is done in just a few moments.

1 medium onion, peeled and chopped  2 tablespoon tomato paste
1 bay leaf

Soak beans overnight or at least 8 hours in water to cover by 3 inches. Drain and pick over beans and rinse. Place the beans in the ceramic pot of the Cuisinart® Slow Cooker.

Trim the lamb shanks of as much visible fat and silver skin as possible. Season them with ½ teaspoon of the salt and ½ teaspoon of the pepper. Heat olive oil in a 12-inch Cuisinart® sauté pan over medium-high heat. When hot add the seasoned lamb shanks and brown well on all sides. Remove and reserve. Reduce heat to low and add the butter. Once melted, add the chopped onions, carrots, and celery, cooking over low heat until vegetables are softened, about 3 to 4 minutes. Add the chopped garlic, remaining salt and pepper and the herbes de Provence and sauté for an additional 2 minutes. Stir in the red wine, scraping any brown bits that may have accumulated on the bottom of the pan with a wooden spoon. Finally, stir in the chopped tomatoes and the tomato paste – stir the vegetable tomato mixture together with the beans in the slow cooker. Tuck the bay leaf and the browned lamb shanks into the vegetable/bean mixture.

(continued)
Cover and press the on/off button to turn the unit on. Set time to 8 to 10 hours and press Low; slow cooker will automatically switch to Warm when cooking time has elapsed. Remove lamb shanks and degrease as necessary. Taste and adjust seasonings accordingly. Serve one lamb shank per person, or remove the meat from the bones and serve up to 6 diners.

8 ounces part-skim ricotta
½ pound part-skim mozzarella shredded, ½ cup reserved for topping
3 teaspoons extra virgin olive oil, divided

1 teaspoon kosher salt, divided
½ teaspoon freshly ground pepper, divided
½ pound frozen chopped spinach, thawed and drained until very dry*

Butternut Squash & Mushroom Scallop

Makes 8 servings (8 cups)

1 ounce Parmesan, cut in half
2 1/2 ounces bread, about 3 slices, crusts on, torn into quarters
1 teaspoon thyme
2 tablespoons butter, divided
1 garlic clove, peeled and cut in half
1 shallot, peeled and cut in half

1 tablespoon olive oil
8 ounces white mushrooms, sliced
1/2 teaspoon kosher salt
1/4 teaspoon freshly ground pepper

3 pounds butternut squash, trimmed, cut into 1/8-inch slices
