COOKING FUNCTIONS

TOAST
1. Place the AirFryer Basket or top of the Baking Pan in the oven in rack Position 2.
2. Set the Function dial to Toast.
3. Set the Temperature dial to desired temperature.
4. The timer will ring once when the cycle is complete and the oven will power off.
5. To stop toasting before the timer expires, turn the Clock/Toast Timer dial to the OFF position.

BAKE
1. Place the AirFryer Basket or top of the Baking Pan in the oven in rack Position 2.
2. Set the Function dial to Bake.
3. Set the Temperature dial to desired temperature.
4. The timer will ring once when the cycle is complete and the oven will power off.
5. To stop baking before the timer expires, turn the Clock/Toast Timer dial to the OFF position.

CONVECTION BAKE
1. Place the AirFryer Basket or top of the Baking Pan in the oven in rack Position 2.
2. Set the Function dial to Bake.
3. Set the Temperature dial to desired temperature.
4. Most baking recipes recommend reducing temperatures by 25 degrees when using the convection feature. Always check for doneness 10 minutes before end of suggested cooking time.
5. The timer will ring once when the cycle is complete and the oven will power off.
6. To stop baking before the timer expires, turn the Clock/Toast Timer dial to the OFF position.

HELPFUL HINTS

1. Oven Light: Oven light will only work when the oven's power is on (power light is on).
2. To add more time to your current cook cycle, simply turn the timer clockwise to add more time. Note: Monitor your food accordingly to ensure it isn’t overcooked.
3. Some moisture may appear on your oven door during some of the cooking cycles. This is normal.
4. When applying oil for airfry recipes, use hands to ensure that oil is spread evenly across food surface after spraying food.
